20-22 September, 2024 | Clarks Exotica, Bengaluru

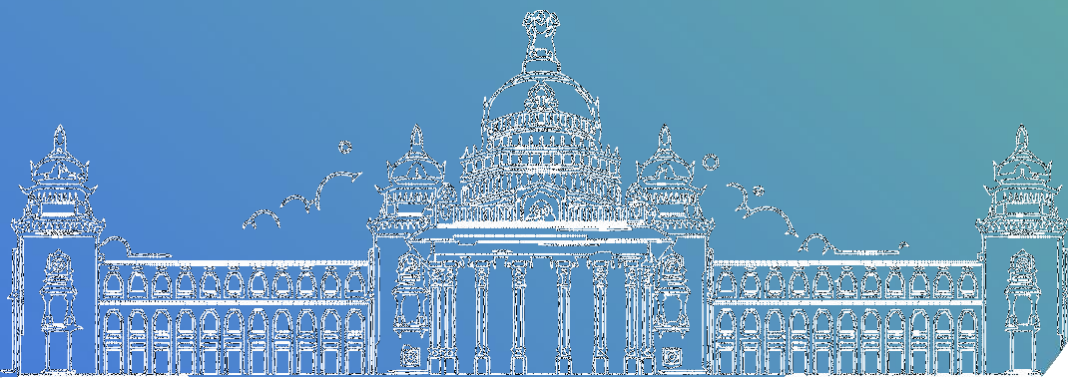

“Embracing Emerging Technologies”

IOS Marathon **PC-01**

Razzmatazz

Bengaluru 19.09.2024

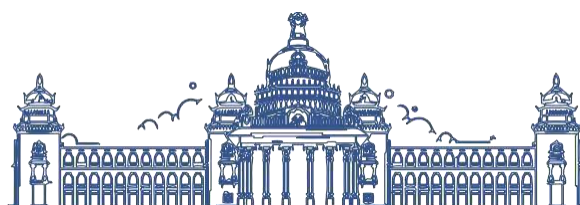

58TH IOC Pre-Conference Course (PC01-01)

Healthy Debate in the scientific arena is the cornerstone of progress and discovery. It embodies the essence of scientific inquiry, where hypotheses are rigorously tested and scrutinized.

Through respectful discourse and exchange of ideas, scientists challenge each other's assumptions, methodologies, and interpretations, pushing the boundaries of knowledge further.

These debates foster critical thinking, leading to deeper insights and more robust conclusions. In an environment where evidence reigns supreme, disagreements are not personal rather opportunities for refining understanding and refining the scientific consensus.

Surgery First Orthognathic Approach vs TADS
